DHAIRYA SHAH

contact@drshah.me | drshah.me | +44-755-504-4023 | linkedin.com/in/dshah08/ | **London, UK**

EDUCATION

❏ **Imperial College London, United Kingdom**   **10-2022 – 10-2023**
Master of Science in Applied Mathematics   **Grade: Distinction**

- Achieved excellence in courses such as Tensor Calculus and General Relativity, Special Relativity and Electromagnetism, Classical Dynamics showcasing a strong foundation in theoretical frameworks essential for advanced studies
- Demonstrated proficiency in Applied Complex Analysis, Quantum Mechanics – I and Vortex Dynamics, underscoring a deep understanding of mathematical principles relevant to theoretical physics
- Other Modules: Numerical Solutions of Ordinary Differential Equations, Methods for Data Science

❏ **Pandit Deendayal Energy University (PDEU), India**   **07-2017 – 06-2021**
Bachelor of Science (Hons.) in Mathematics and *Diploma in Liberal Studies*   **CPI: 9.10/10**

- Received perfect scores (10/10) in all mathematical modules across eight semesters, setting an unbroken record
- Demonstrated mastery in foundational mathematical physics concepts, including Differential Geometry, Real Analysis, Complex Analysis, and Fluid Mechanics, providing a strong basis for advanced studies in theoretical physics
- Selected Modules: Integral Equations, Integral Transforms, Topology, Special Functions, Differential Equations

RESEARCH EXPERIENCE

❏ *MSc Thesis:* Local Solution to Electro-Capillary Phenomenon near Sharp Corner   **10-2022 – 09-2023**

- Investigated the behaviour of the voltage local to the triple contact point for the Electrowetting phenomenon
- Derived Eigenvalue condition near the triple contact point, demonstrating that the corresponding equipotential lines do not form eddies
- Supervised by Dr Samuel Brzezicki

❏ *BSc Thesis:* Numerical Methods for Solutions of One Variable Nonlinear Equations   **07-2019 – 06-2021**

- Categorised methods developed over the last 250 years in four families and devised an analogy for interconversion
- Developed a set of efficient methods in fixed-point family and implemented different methods to solve nonlinear equations
- Showcased the fixed-point family as the most efficient and stable; resulting in a conference proceeding: 1
- Supervised by Dr Manoj Sahni and Dr Ritu Sahni

❏ *BSc Research Collaboration:* Novel Formulae for Series Involving Floor and Ceiling Functions   **06-2019 – 04-2022**

- Formulated and applied two original theorems to derive over 40 novel results pertaining to Floor and Ceiling functions
- Provided generalisations for different finite and infinite series as well as for the cases of Generalized Dirichlet series such as Riemann, Hurwitz, and Lerch Zeta functions; resulting in two published articles (I, II)
- In Collaboration with Dr Manoj Sahni, Dr Ritu Sahni, Dr Ernesto León-Castro and Dr Maricruz Olazabal-Lugo

❏ *BSc Project II:* Applications of the Fuzzy Set Theory   **01-2018 – 04-2019**

- Derived the solution for second order Cauchy-Euler equation using generalised trapezoidal intuitionistic fuzzy numbers
- Fuzzified generalized Newton Raphson type method to solve one variable equations; resulting in four articles

❏ *BSc Project I:* Fixed Point Theory and Numerical Methods   **08-2017 – 11-2019**

- Obtained a formula that provides exact number of iterations required based on initial guess for the fixed-point method
- Amalgamated the Fixed-Point and Newton-Raphson method to demonstrate that the integrated methods converge faster than the original pair; resulting in an article and a conference proceeding

AWARD AND GRANT

❏ Received **Certificate of Merit (Student)** for the 2018 International Conference of Applied and Engineering Mathematics for the paper entitled "DMS Way of Finding the Optimum Number of Iterations for Fixed Point Iteration Method"

❏ Awarded a **Travel Grant** of **65000 INR ≈ £700** in 2018 by Pandit Deendayal Energy University to present a conference paper in the U.K.

PRESENTATIONS AND DEFENCES

❏ Postgraduate Thesis Defence – *Local Solution to Electro-Capillary Phenomenon near Sharp Corner* **18th Sep 2023**
   Department of Mathematics, **Imperial College London, UK**

❏ Postgraduate Poster Presentation – *Complex Analytical Approach to Electrowetting* **26th Jul 2023**
   Department of Mathematics, **Imperial College London, UK**

❏ Undergraduate Thesis Defence – *On Numerical Methods for Real Solutions of One Variable Nonlinear Equations* **2nd Jun 2021**
   School of Liberal Studies, **Pandit Deendayal Energy University, India**

❏ Conference Presentation – *DMS way of finding the optimum number of iterations for Fixed Point Iteration Method* **5th Jul 2018**
   2018 International Conference of Applied and Engineering Mathematics **World Congress on Engineering 2018, London, UK**

TEACHING EXPERIENCE

❏ **The Charter School North Dulwich, London**, *Graduate Teaching Assistant (**SEN, Mathematics**)* **09-2024 – Present**
   • Supporting SEN students in Mathematics with tailored guidance, collaborating with teachers to adapt resources for individual learning needs
   • Delivering small group instruction to improve comprehension and build confidence in Mathematics for SEN students

❏ **Cardinal Hume Centre, London**, *Homework Club Volunteer (**Mathematics**)* **05-2024 – Present**
   • Providing support in using academic resources, assisting with homework, exam preparation, and teaching Mathematics up to GCSE level
   • Supporting students in improving numeracy, engaging them with learning activities, and offering guidance with reading educational materials

❏ **Maths and Astronomy Clubs, PDEU**, *Course Facilitator of **Mathematical Aspects of Relativity*** **10-2023 – 12-2023**
   • Designed, developed and delivered a 30-hour course on Mathematical Aspects of Relativity to undergraduate students, with focus on Lagrangian and Hamiltonian dynamics as well as advanced topics in Special Relativity
   • Applied aforementioned concepts to teach principles such as the conservation of momentum and energy, as well as derivations such as $E = mc^2$, thereby fostering a deeper understanding of concepts of Relativity

❏ **Office of International Relations, PDEU**, *Teacher of **Foundations of Mathematics*** **12-2019 – 03-2020**
   • Developed instructional material to reinforce foundational Mathematics skills for twelve international engineering students, achieving a 92% pass rate in subsequent mathematics exams
   • Implemented innovative pedagogical methods, including real-world examples and visualization techniques to enhance understanding of fundamentals

❏ **Yusuf Mehrally Centre (NGO), Kutch**, *Teacher of **Science** & **Mathematics*** **12-2018 – 01-2019**
   • Taught Mathematics and Science to underprivileged 8th-grade students (UK Year 9 equivalent), tailoring methods to meet the needs of students with special learning requirements, resulting in a 20% increase in exam pass rates
   • Demonstrated adaptability and dedication, ensuring higher success rates despite the challenging circumstances faced by the students

KEY ACADEMIC ENGAGEMENTS

❏ **Department of Mathematics, ICL, UK**, *MSc Programme Representative* **10-2022 – 09-2023**
   • Chaired PG Student-Staff Committee meetings, ensuring seamless communication and implementation of key student suggestions and concerns as well as participated in various meetings by university and union staff
   • Performed the role of liaison between the MSc cohort and the department, soliciting student feedback and sharing the areas of learning and opportunities appropriately with both parties

❏ **Board of Studies, PDEU**, *Student Representative for the Department of Mathematics* **03-2021**
   • Proposed a cohesive course structure for the B.Sc.(Hons.) Mathematics program, in alignment with international standards, which was unanimously accepted and implemented forthwith, receiving appreciation
   • Enhanced students' subject proficiency through the suggested course structure, resulting in 80% Mathematics graduates in subsequent years getting offers from top-ranked universities

❏ **Second International Conference on Mathematical Modeling, Computational Intelligence Techniques and Renewable Energy (MMCITRE) - 2021**, *Head, Associate and Logistics Committee* **6th to 8th Feb 2021**
   First International Conference MMCITRE - 2020, *Head, Associate Committee* **21st to 23rd Feb 2020**
   • Directed associate and logistic committees of 30+ undergraduate and postgraduate students, overseeing hospitality, management, and other key departments in organising both conferences
   • Managed a hybrid conference (offline and online) with 120+ presenters and speakers in 2021 and 90+ in 2020, successfully navigating through the challenges posed by the COVID-19 pandemic

RELEVANT SKILLS

❏ **Proficiency in Programming Languages**: Python, Wolfram Language, C/C++, MATLAB

❏ **Proficiency in Operating Systems & Tools**: Debian Linux, Windows, Git, Github, LaTeX, Google Collabetory, Libre/Microsoft Office
